

# THE EIP3 EMOTIONAL INTELLIGENCE PROFILE

**IQ AND TECHNICAL SKILLS ARE IMPORTANT,  
BUT EMOTIONAL INTELLIGENCE IS ESSENTIAL TO GREAT LEADERSHIP.**

## **When it comes to effective leadership, there is no hard and fast formula.**

The characteristics of those who are truly effective vary widely—and that can be both comforting and confusing. It means that anyone can be a great leader, but it leaves us with a lot of questions about how best to tap into our potential.

In our quest for growth, however, we can rely on one certainty: being emotionally intelligent is one of THE most crucial characteristics of great leadership.

If you're a leader eager to inspire more from your team or an individual curious to explore your EI, we can help you create a path beginning with the EIP3 Emotional Intelligence Profile.
